ABOUT THE PROPERTY

Great Timber tract For Sale in Holmes County, FL. This property boast over 234 acres! Excellent deer, turkey and duck hunting. Stocked fishing pond, good road system. Nice 60 x 36 barn with 2,160 sqft. Concrete floor with office and roll up door.

If you are looking to start an organic farm, the land would qualify, something that generally take 7 years or more. No poisons (herbicides or otherwise) have been sprayed here, leaving the pond full of very edible fish and the ecosystem intact. The deer that graze here have not been ingesting glyphosate (roudup) which we now know is carcinogenic. There is a healthy population of amphibians (the species most immediatley effected by insecticides & herbicides) which are important in controlling the insect population & having a healthy bird population, such as, quail, doves, woodpecker etc..
